

Regional Cooperation Council

SEE2020
SOUTH EAST EUROPE 2020

SEE 2020 Implementation

37th Plenary meeting of SEEHN, Sarajevo, 28 June 2016

SEE 2020 Strategy

SEE 2020 materialized as a response to Europe 2020, as the region was left out of the main European growth framework.

At the Ministerial meeting on November 9, 2012:

- ✓ Ministers of Economy adopted 11 regional and 77 national headline targets to be reached by 2020
- ✓ RCC was tasked to coordinate the SEE2020 implementation

South East Europe 2020

Integrated growth

deeper regional trade and investment linkages and policies enhancing the flow of goods, investment, services and persons

Smart growth

commitment to compete on value added, promoting knowledge and innovation across the board

Inclusive growth

skills development, employment creation and labour market participation by all (minorities & vulnerable groups), health and well being

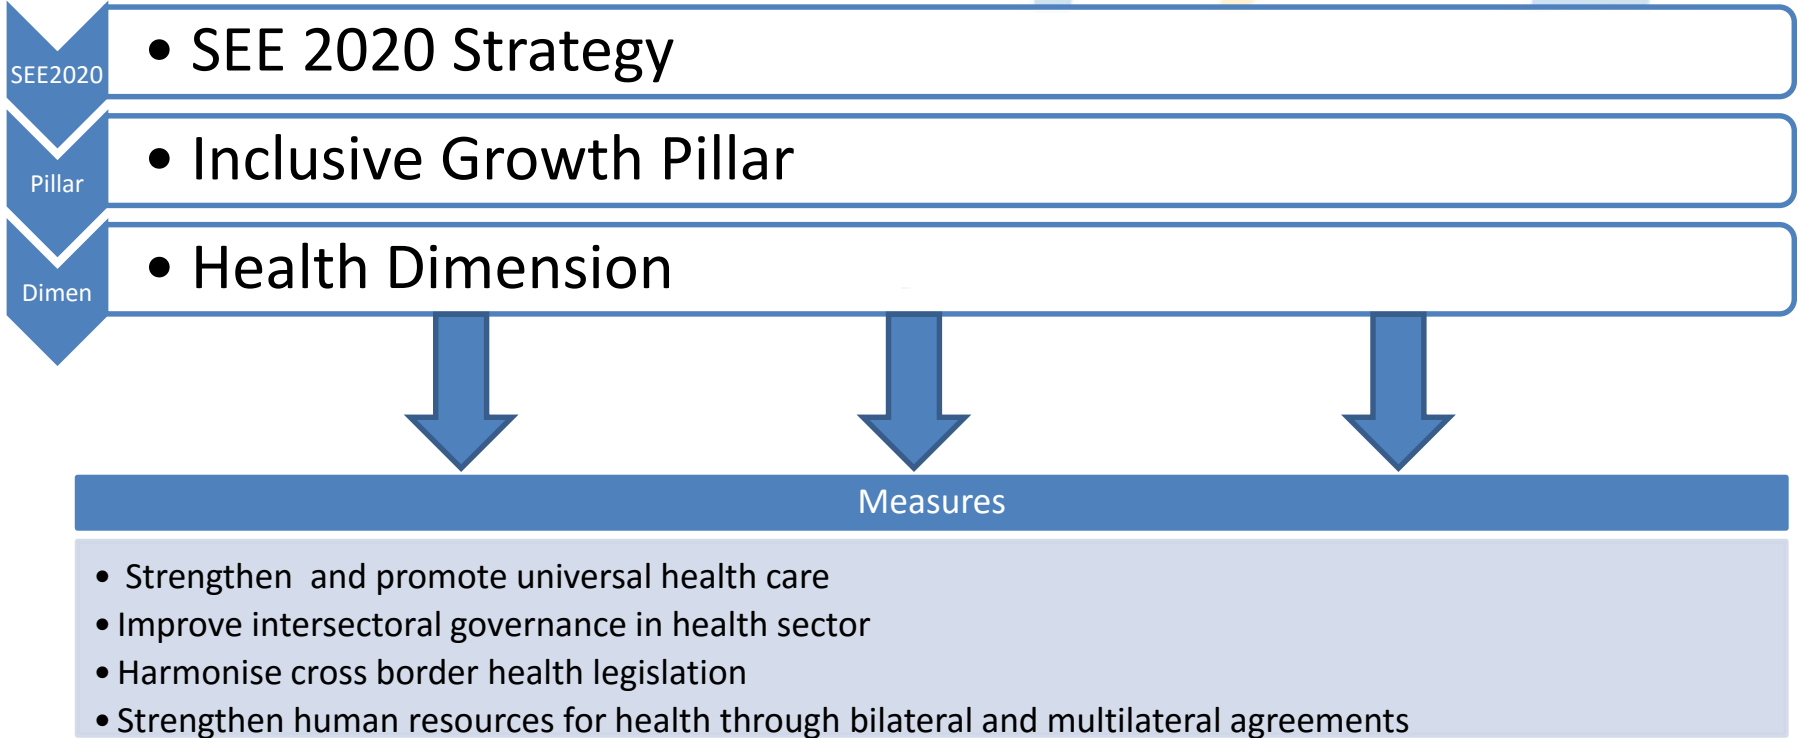

SEE 2020 Vision

Sustainable growth

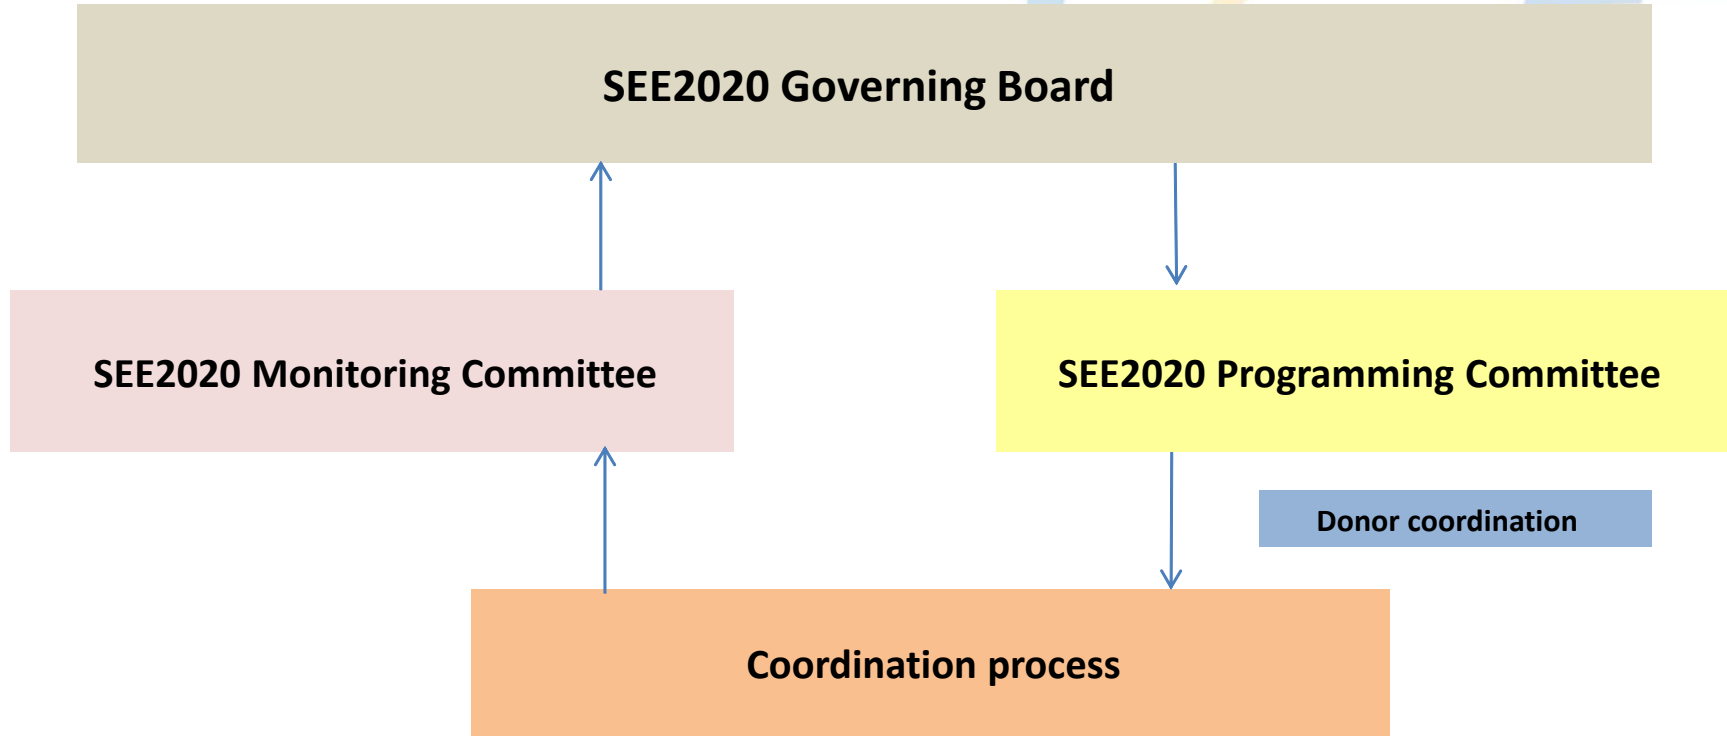

enhancing competitiveness, entrepreneurship and a commitment to greener and more energy-efficient development

Governance for growth

improving the capacity of public administrations to strengthen the rule of law and reduce corruption so as to create a business-friendly environment

SEE2020 Governing Structure

SEE2020 Programming process

- composition: SEE2020 coordinators and National IPA coordinators
- start of programming cycle: June 2015;
- preparation phase: June 2015 - March 2016;
- two meetings of the programming committee took place;
- **result: SEE 2020 Programming document 2016 - 2018 adopted.**

SEE2020 Monitoring process

- Established structure – Monitoring Committee comprised of statistical offices and SEE2020 coordinators
- Decreased number of indicators (from more than 300 to less than 160 quantitative indicators collected);
- Improved coordination with national and regional coordinators - facilitated process through SEE2020 coordinators.
- Data on perception based indicators collected through Balkan Barometer (public and business sentiment)
- Next few slides feature tables on data collection per economy on health expenditure and slide on public perception from Balkan Barometer related to health

Data collection 2015 - Albania

Dimension: Health										
No	Indicator	Description of indicator	2010	2011	2012	2013	2014	2015	Source	Comments
53	Health insurance coverage (% of population)	Coverage for health care is defined as the share of the population receiving a core set of health care goods and services under public programmes and through private health insurance <u>Source:</u> Statistical office, Ministry of health								
54	Health insurance coverage under public programmes (% of population)	Coverage for health care is defined as the share of the population receiving a core set of health care goods and services under public programmes of health insurance. <u>Source:</u> Statistical office, Ministry of health							Min.of Health	
55	Public sector health expenditures as % of GDP	It covers the provision of health services (preventive and curative), family planning activities, nutrition activities, and emergency aid designated for health but does not include provision of water and sanitation <u>Source:</u> Statistical office, Ministry of health	3.41	3.23	3.30	3.23	3.27		INSTAT / Min.Fin.	Public expenditure on Health (by COFOG) as % of GDP.
56	Expenditure on prevention as share of total health expenditure	It covers the provision of health services on prevention activities only, NOT curative. <u>Source:</u> Statistical office, Ministry of health							Min.of Health	

Data collection 2015 - BiH

Dimension: Health										
No	Indicator	Description of indicator	2010	2011	2012	2013	2014	2015	Source	Comments
53	Health insurance coverage (% of population)	Coverage for health care is defined as the share of the population receiving a core set of health care goods and services under public programmes and through private health insurance <u>Source:</u> Statistical office, Ministry of health								BiH does not have these data
54	Health insurance coverage under public programmes (% of population)	Coverage for health care is defined as the share of the population receiving a core set of health care goods and services under public programmes of health insurance. <u>Source:</u> Statistical office, Ministry of health								BiH does not have these data
55	Public sector health expenditures as % of GDP	It covers the provision of health services (preventive and curative), family planning activities, nutrition activities, and emergency aid designated for health but does not include provision of water and sanitation <u>Source:</u> Statistical office, Ministry of health	6,35	6,55	6,69	6,65	n/a	n/a	BHAS, NHA for BiH	
56	Expenditure on prevention as share of total health expenditure	It covers the provision of health services on prevention activities only, NOT curative. <u>Source:</u> Statistical office, Ministry of health	0,14	0,13	0,16	0,16	n/a	n/a	BHAS, NHA for BiH	

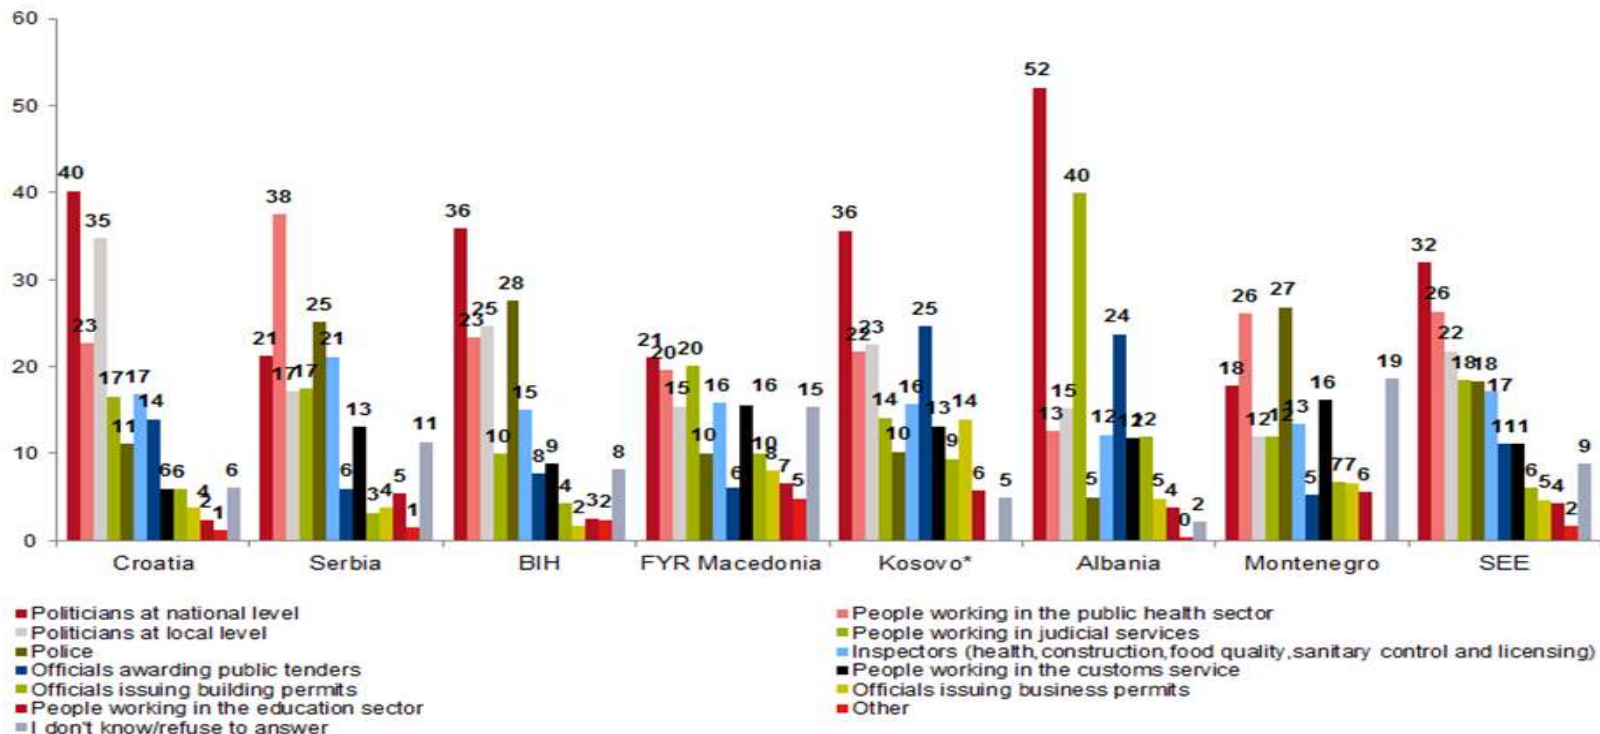

Data Collection 2015 – The Former Yugoslav Republic of Macedonia

Dimension: Health										
No	Indicator	Description of indicator	2010	2011	2012	2013	2014	2015	Source	Comments
53	Health insurance coverage (% of population)	Coverage for health care is defined as the share of the population receiving a core set of health care goods and services under public programmes and through private health insurance <u>Source:</u> Statistical office, Ministry of health	92.7	89.2	84.7	86.5	86.6			92.7
54	Health insurance coverage under public programmes (% of population)	Coverage for health care is defined as the share of the population receiving a core set of health care goods and services under public programmes of health insurance. <u>Source:</u> Statistical office, Ministry of health	92.7	89.2	84.7	86.5	86.6		HIFM annual reports and Statistical office	92.7

56	Expenditure on prevention as	It covers the provision of health services on prevention activities only. NOT curative	14.75	8.72	19.5	15.9	8.6	8.1	State Budget	

Balkan Barometer 2015– corruption sentiment in SEE

SEE 2020 through the “flagship” approach

The Programming of the SEE 2020 implementation through flagships anchored in the following :

- priorities and measures defined in the SEE 2020 Strategy.
- political commitments, socio-economic developments in the economies concerned (and the EU),
- maturity of regional cooperation in different policy areas and most importantly the funding realities.

“Having to do more with less”

SEE 2020 through the “flagship” approach

- Policy mix:**
- Employment
 - Education
 - Social
 - Mobility and migration
 - Trade (liberalization)

- Policy mix:**
- Transport
 - Energy
 - Electronic communication policy
 - Trade (facilitation)

- Policy mix:**
- Industrial policy
 - Trade policy
 - Investment policy
 - SME and enterprise development
 - Innovation

The Regional Cooperation Council promotes mutual cooperation and European and Euro-Atlantic integration of South East Europe in order to inspire development in the region to benefit its people
